

Insurance COI Triage

Certificate requests read, checked and drafted for you. Your team just reviews and sends.

Built and tested by Jonathan Munteanu

15 → 2 MIN

per certificate request

About 15 by hand. Under 2 to review.

VERIFIED IN TESTING

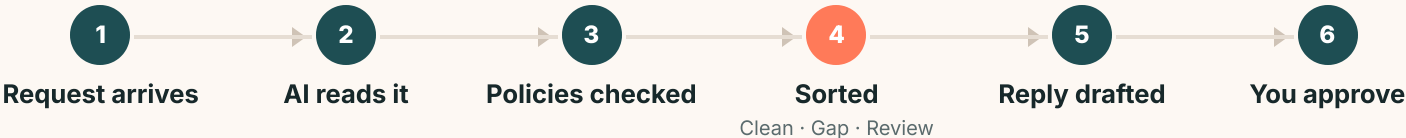

THE PROBLEM

Every request means reading the email, pulling up the client's policies and checking each line by hand. About 15 minutes each, squeezed between everything else.

WHAT CHANGES

- Each request is read and checked in seconds
- The reply is drafted, certificate attached
- Gaps go to your client first, with the fix
- Your team reviews and sends

HOW IT WORKS

VERIFIED IN TESTING

< 2 min

to review a request

~6 sec

to read and check it

18 / 18

safety tests passed

0

sent without approval

BUSINESS VALUE

ILLUSTRATIVE ROI

40–80 a week ≈ 9–17 hours back

About \$22K–\$45K a year in service-team time, without hiring another CSR.

13 min saved per request (tested) at \$50/hr. Not a client result.

GUARDRAILS

- Nothing sends without your approval
- Unsure? It hands it to a person
- Your records stay read-only
